MSE Highlights

- Martin Thuo's work on nanoparticle production is featured by the [College of Engineering](#). Thuo's team uses low-cost tools to create nanoparticle catalysts and drug-delivery systems.
- Thuo has also been named a Black and Veatch Faculty Fellow.

- Hanzheng Guo won the Trivedi Best Student Paper Award.
- David Lantz (MatE and AeroE, '08) was [one of many ISU alumni](#) working on the team of NASA's Orion test flight.
- Anja Mudring's work using ionic liquids to optimize processes for critical materials is featured by [Ames Laboratory](#).
- Ludovico Cademartiri received the PSI Faculty Scholar Award.

- Krishna Rajan received the [Alexander von Humboldt Research Award](#).

- Nicola Bowler is featured by the [College of Engineering](#) as a member of a CoE team researching low-cost sensors that can be used to monitor nitrate concentration. The team received a USDA grant to further research these sensors with the hopes of helping landowners in their conservation efforts.
